“For him who follows the path for seeking knowledge, Allah will ease for him the path to paradise”

Prophet Hazarat Muhammad ﷺ

Preface

In our continued efforts to provide quality education, information has proved to be a major resource. This resource is used to assess the performance of the sector against targets, and facilitates the formulation of policies and resource mobilization among all stakeholders. The education management information system is the tool, which enhances the capacity of Data Collection, processing & dissemination and makes information readily available in a timely manner.

The information included in this Publication is part of the data gathered from the annual education census 2019-20 for data collection exercise was conducted during the months of May to July 2019. This publication contains summarized information from primary level to higher secondary school level which is categorized inter districts tehsils and union councils. the report focuses on information on the number of public institutions bi level, type, stage, status, gender, location, number of teachers, enrollment, facilities in the educational institutions and annual comparisons etc. It is anticipated that the information presented in this report would be useful for policy and decision makers, planner, supervisors and implementers at state and national levels, which would facilitate in launching of result oriented programs and projects and their effective implementation.

This annual census report is published with the financial assistance of Islamic Development Bank's Assisted Projects. We wish to thank IsDB and other stakeholders for their assistance in making the publication of this abstract reality. We would like to appreciate the effort of the whole team including Planning Cell, EMIS Directorate, PMU Islamic Development Bank Assisted Projects and Taleem Foundation, who worked earnestly and played a vital role in this successful publication of education statistics report. We also appreciate the services and keen interest of DPIs, divisional directors, district education officers, Deputy District education officers who have not only produced equality document but also method targets within the timelines set for this purpose.

It is worth noting that the comments you make on this abstract report will improve our subsequent Publications. All are encouraged or and welcome to contact Directorate of EMIS, elementary and secondary education department for any further information and also to utilize and benefit from the updated and latest available education statistics.

Zahid Khan Abbasi

Secretary, Elementary and Secondary Education.

Message: Minister Elementary & Secondary Education

Message: Secretary Elementary & Secondary Education

I feel great pleasure in presenting EMIS Annual Census Report 2019-20; developed for the statistical assistance of planners, policy makers, donors, international and national organizations, and educational analysts. It is a matter of great satisfaction that the Department of Elementary & Secondary Education, Government of Azad Jammu & Kashmir (AJK) has published its EMIS Report for the year 2019-20. The report provides authentic information and consolidated data on the education sector in AJK.

The present government under the leadership of Honorable Prime Minister of AJK, Raja Farooq Haider Khan is following a fast track approach to improve the whole education system in AJK. Apart from removing the administrative bottlenecks, firm measures are being taken to strengthen monitoring evaluation and management systems in each education sector. I strongly believe that this document will provide basis for achieving the desired objectives.

The latest edition of this EMIS report is aimed at serving the stakeholders in the best possible way. The stakeholder will find it every useful and informative for evidence based planning at division, district and lower levels.

I congratulate EMIS staff of Education Department and other partners for developing such a helpful document and hope that will go a long way to improve & update the education system in AJK.

Zahid Khan Abbasi

Secretary, Elementary & Secondary Education

Message Special Secretary Elementary & Secondary Education

Publishing of EMIS Annual Census Report for year 2019-20 symbolizes the best example of collaborative efforts of Department of Education AJK and its partners in further improving the education system to meet the needs of contemporary age. We believe in excellence and are trying to build firm foundations of our education system which is inspired by the global vision of “Education for All”.

This very initiative will provide information to education planners, to analyze, devise strategies, set targets, action steps and responsibilities, and to allocate equitable and need-based resources to uplift the quality of education in AJK. The system will further be strengthened to encourage district based planning and human capacity enhancement in the near future.

I hope that the provision of the document will play a significant role in securing the means to meet targets towards education for all, through improvements in the education system, faculty development and institutional strengthening.

I appreciate and congratulate the EMIS Team of Department of Education and other partners who have played various roles in making the publication a reality.

Khalid Mehmood Mirza

Special Secretary Elementary & Secondary Education

Message of IsDB Focal Person

Elementary & Secondary Education Department, Government of Azad Jammu & Kashmir is committed to progress the overall Education through various initiatives to improve the quality of education in Azad Jammu & Kashmir. Islamic Development Bank (IsDB) is supporting Government of Azad Jammu & Kashmir to promote educational development through informed decision making practices. One such initiative is to enhance the capacity of Elementary & Secondary Education Department to collect, organize and report accurate, relevant and timely education statistics for planning and decision making purposes and to promote the use of information for educational development.

The establishment of Education Management Information System (EMIS) is a landmark achievement which will enable the education department take robust decisions to uplift the quality of education. The EMIS system can collect, integrate, process maintain and disseminate data and information which will support decision-making, policy analysis and formulation, planning, monitoring and management at all levels in the education system. The basic objective of establishing EMIS is to ensure that accurate data generated can be reported to all stakeholders in a meaningful manner and within reasonable timeframe.

These insights can be used to analyze and monitor the improvements or retrogression in the students over time. Educators could get a detailed analysis of student academics, their weak areas which promote personalized learning & data-driven insights to improve student academic outcomes. Administration can further compare year on year student performances, and change the delivery style and map the consequent outcomes.

The implementation of ICT tools are intended to bring transparency and accountability in the delivery of education services. EMIS operationalized in E&SE Department is a centralized portal that will take us one step further in this regard to provide easy and transparent access to all information of public interest and particularly regarding education service delivery.

I congratulate and appreciate the untiring efforts of all the members of Project Coordination Committee constituted to coordinate EMIS development and data collection as well as strategic guidance provided by the Steering Committee. The consultant engaged by IsDB Assisted Projects, M/s Mazhar Enterprises (Pvt.) Limited played pivotal role in transforming requirements of E&SE Department in to functional Education Management Information System (EMIS).

Sayed Safdar Hussain Bukhari
Monitoring & Evaluation Officer
Focal Person EMIS, PMU-IsDB Assisted Projects

“Pakistan is proud of her youth, particularly the students, who are nation builders of tomorrow. They must fully equip themselves by discipline, education, and training for the arduous task lying ahead of them”.

Quaid-e-Azm Muhammad Ali Jinnah

October 31, 1947 Lahore

Foreword

Education statistics 2019-2020 is an annual Publication that is part of the Department of Elementary & Secondary Education (E&SE) commitment to accountability and high quality reporting. It provides the most frequently requested information on the element instantly education.

The report on AJK education statistics 2019-2020 comprises of educational data pertaining to all categories of education institutes in public sector from pre-primary to Higher Secondary School level as well as glimpse of private sector covering schools, enrollment and staff. The report contains information regarding number of educational institutions, enrollment, teachers, physical facilities and comparison. The tabulation is disaggregated by gender and location as well as by district, Tehsil and Union Councils. The information given in the report reveals the Trends and important milestones in the system as a whole and will be a catalyst in the process of setting goals and targets at micro and macro levels in policy and decision making.

Directorate of EMIS is making concerted efforts for the availability of reliable, valid and quality data on education. It has developed standard operations and procedures and guidelines for data collection for this purpose. A key element it in the strengthening of the institution setup, and to improve Education Sector implementation and Service Delivery, in the enhancement of the AJK Education Management Information System. However AJ&K EMIS suffers from a number of problems such as lack of resources, limited data coverage, dependency on outside resources, weak verification and validation procedures and delays in compilation of educational data due to non-availability of funds. To improve the efficiency and use of the EMIS system it is imperative to determine the capacity of the system and propose measures towards its improvement.

Many people contributed to the compilation of this document. Special thanks are extended to district officers' staff and head of Institutions for the dedication in ensuring that the information submitted for 2019-20 Annual General Return was accurate and reliable. We appreciate the efforts made by IsDB Assisted Projects, Planning Section of E&SE and Board of Information Technology in continuous supervision and efforts in data collection and development of Education Management Information System which provides the basis for ensuring that the information contained in this report is valuable to use in examining educational trends.

Muhammad Zahoor Khan

Director EMIS & IT

Elementary & Secondary Education (E&SE) Department.

Islamic Development Bank Assisted Projects

Islamic Development Bank is financing “BASIC EDUCATION FOR ALL” and “SUPPORT TO BASIC EDUCATION DEVELOPMENT” Projects being implemented through Project Management Unit of IsDB Assisted Projects. The main Objective of assistance is to provide equal opportunities of basic quality education to all school age children to remove existing social inequalities.

The project envisages that the literacy rate of the AJK will increase from 67% to 95% in 5 years while more than 52,000 children will have access to quality basic education and more than 3898 staff will be trained. The quality of life of more than 0.300 million people of this un-served and under-served area will improve and same will benefited on completion of this project.

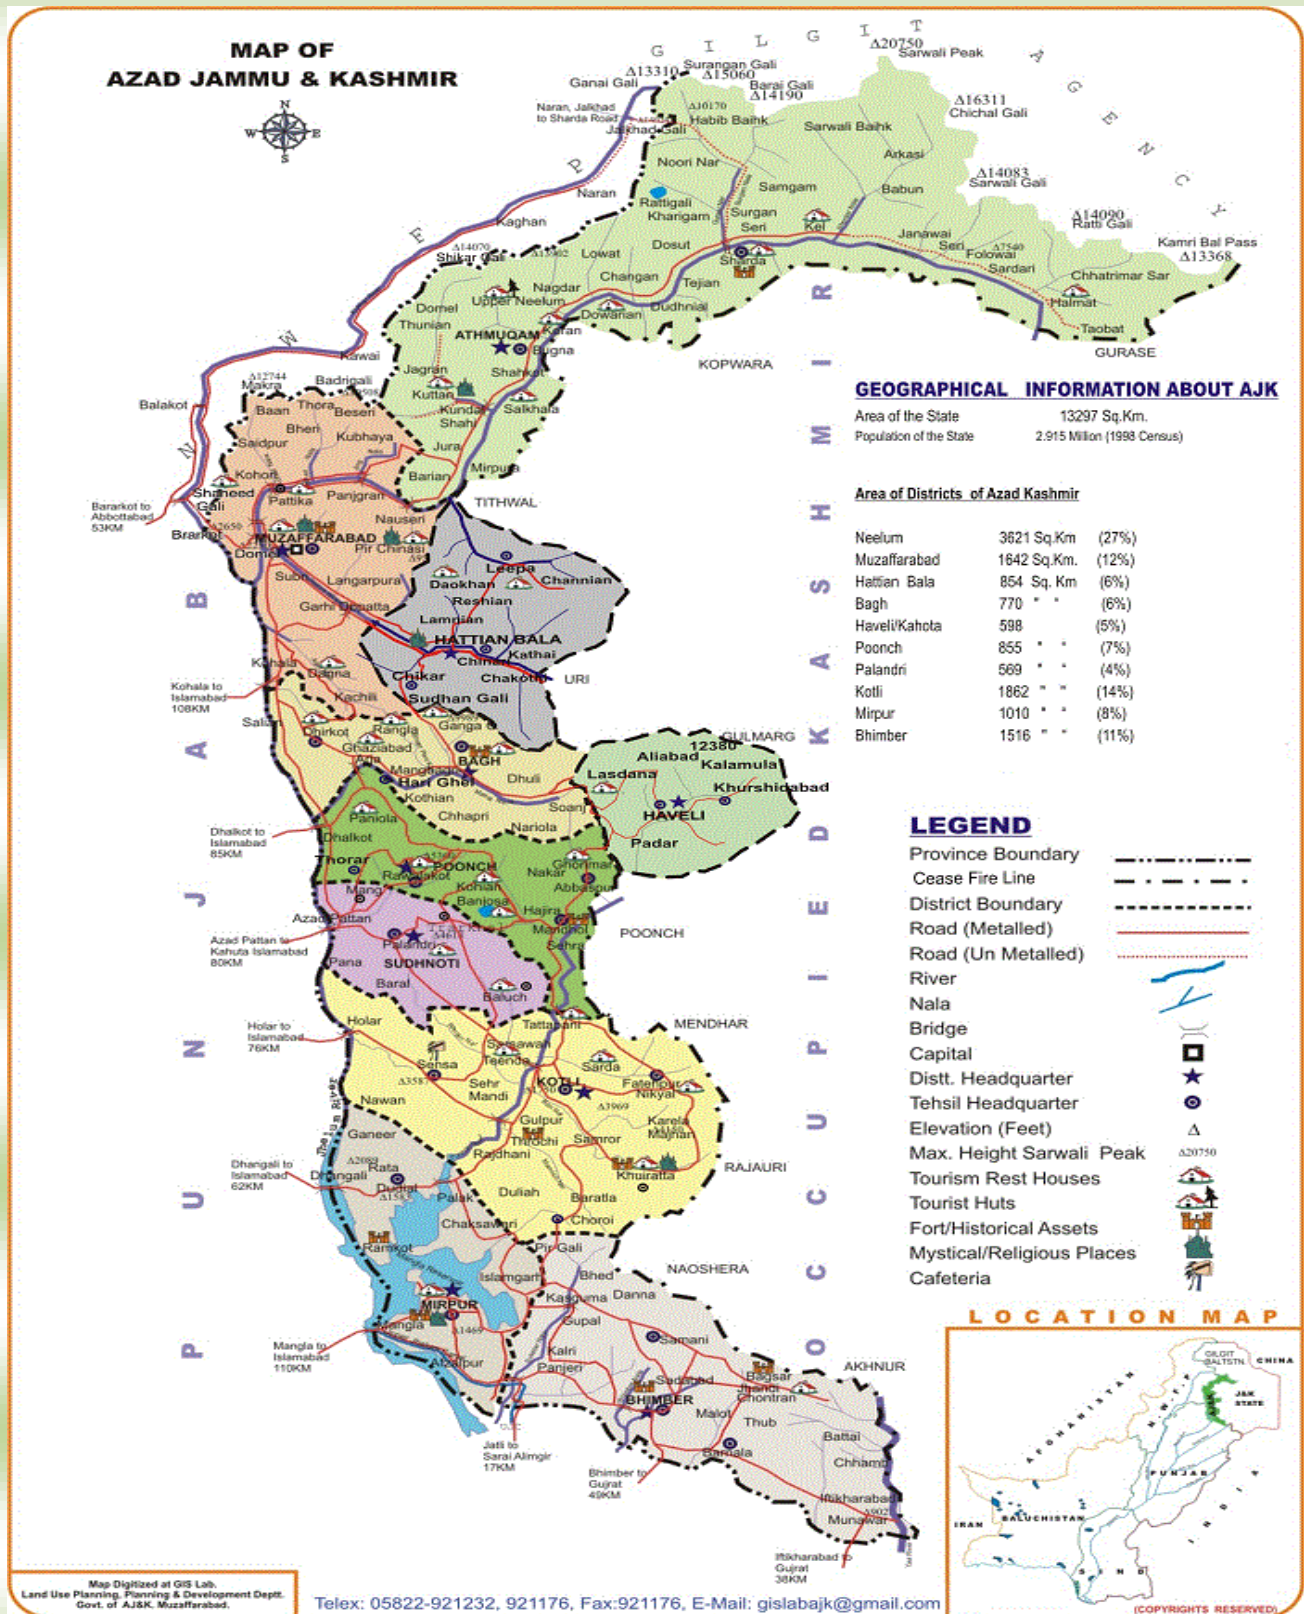

Project has also supported Elementary & Secondary Education Department in establishing an Education Management Information System (EMIS). The basic objective of establishing EMIS was to rely on technology and ensure that accurate education data is collected, collated and reported to all stakeholders in a meaningful manner and within a reasonable timeframe. EMIS operationalized in E&SE Department is centralized portal which provides comprehensive education data to stakeholders at click of a button.

Overall objective of assistance to the E&SE Department is to promote educational development through informed decision making practices. To collect, organize and report accurate, relevant and timely data for planning and decision making purposes and to promote the use of information for educational development. More specific objectives of EMIS are:-

- ✓ Build the capacity of EMIS Directorate within the department of education to collect, process, analyze, publish, store, disseminate and give efficient services of educational information for users.
- ✓ To promote the use of education information both internally and externally by increasing quality.
- ✓ Create a network of users and producers and increase the role of information in the development of education.
- ✓ Cultivate the ability of EMIS staff in the area of survey administration, data processing (hardware, software, and networking), ability to analyze and use educational information, and the ability to manage, monitor, and evaluate the activities of EMIS and take active part in similar activities in other sectors of the ministry.

Map of Azad Jammu & Kashmir

**“Education is the most powerful weapon which
you can use to change the world.”**

Nelson Mandela

Executive Summary

The report is divided into five (05) chapters. Chapter Number 1, 2, 3 are further divided into 4 subsections i.e. Summaries of institutions, enrollment, statistics pertaining to teachers, facilities available at the government institutions while Chapter Number 4 addresses statistics related to the private sector educational institutes. Chapter 5 is regarding schools constructed by the donors including the IsDB Assisted Projects.

The statistics presented in this publication belong to all the categories and types of the 5991 government education institutes of AJK while 2765 private sectors education institutes are in AJK which are further explained at Chapter 4 of this publication. The Government schools includes 1000 mosques, 3117 primary, 12 others including community schools and village workshops, 1003 middle, 746 High, 103 higher secondary schools and 10 elementary colleges. The mosque schools are being counted here as boys primary schools. Hence the total number of primary schools including mosque schools is 4117. The segregation of data from schools shows that institution for the female students are 46%, 49%, 48% and 59% at primary, middle, high, and higher secondary levels respectively as compared to institutions of male students.

The total enrollment figure for the government institutes is 474615 of which all students are studying at schools. The gender based segregated data at different levels of schooling shows that enrollment of female student is 59%, 59%, 59% and 42% at primary, middle, high and higher secondary levels respectively as compared to enrolment of male students.

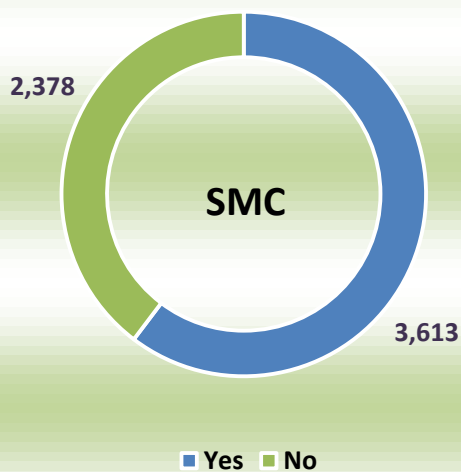

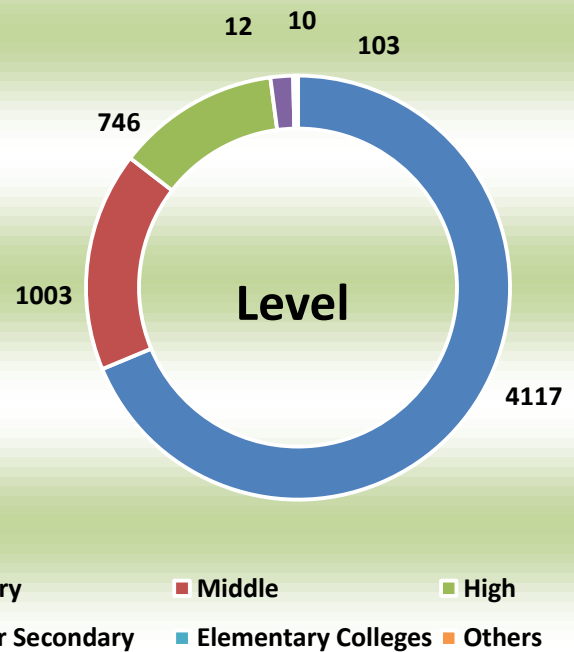

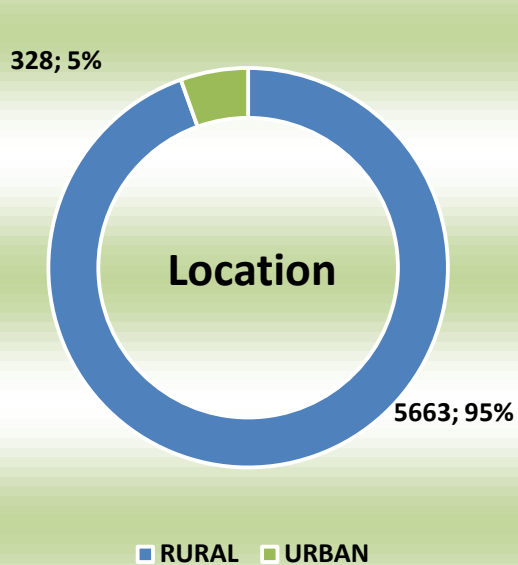

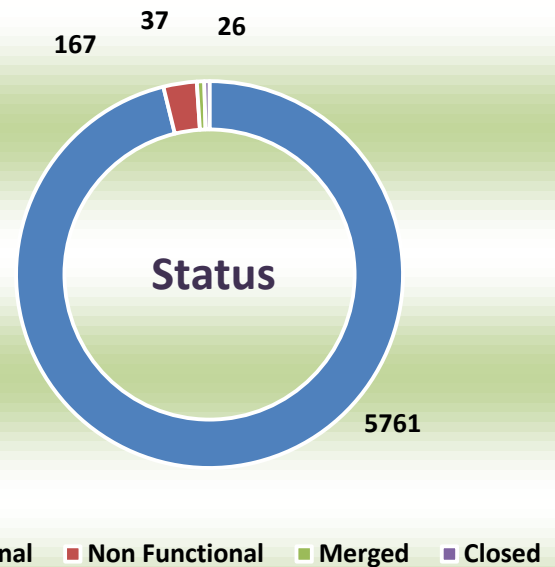

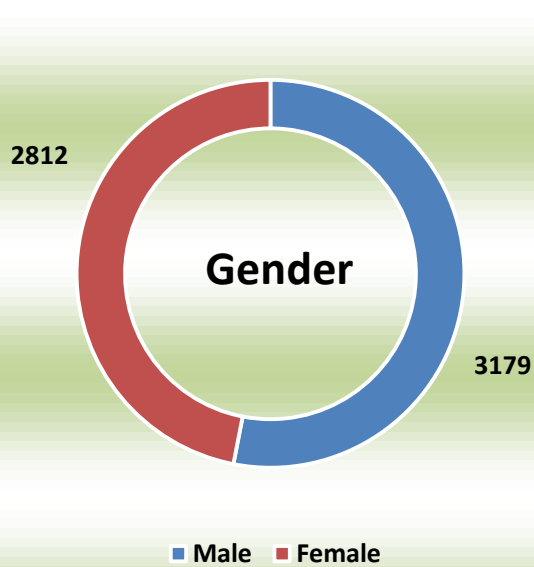

Total number of staff in all government institutes is 30,382. Out of which, 26714 is teaching staff while 3886 are non-teaching staff working in government institutes. There are 197 school employees currently working in administrative offices out of which 54 are teachers while 143 belong to the non-teaching cadre. The report also highlight the human resource strength of the administrative units for education at State, Division and District level.

The highest number of teachers belong to high schools being 13,703 and the lowest figure of 2725 corresponds to teachers in higher secondary schools.

This publication also highlights the availability of major facilities in all 5991 government institutions. These facilities are drinking water, electricity, latrines for teachers and students, boundary wall and playground. According to the data 37% institutions have drinking water facility, 31% have electricity facility, 52% have teacher latrine facility, 45% have student latrine facility and only 33% have boundary walls.

Kofi Annan

Background

Education is key to human resource development. Globally, it has been observed that countries attach the highest priority to education due to its complementarities with other sectors. For example; higher levels of education lead to higher returns to the health, agriculture and industrial sectors etc. the government of Pakistan declared education as a fundamental right of its citizens and committed to provide access to education to every citizen. This demands efficient use of the available resources. These resources may come from the government, private sector, civil society groups and development partners.

Better planning is the first and important element of education expansion and it requires baseline information about education sector at micro level. For this purpose, Government of Pakistan has established Education Management Information Systems (EMIS) at federal as well as provincial and district levels. EMIs is the only source to process and produce huge amount of data about education sector for various purpose. Keeping in view the importance of EMIS, Government of Azad Jammu and Kashmir has developed a web based Education Management Information System with the support of Islamic Development Bank financed IsDB Assisted Projects which is successfully functioning under EMIS Directorate. EMIS systems are also operational in Punjab, Khyber Pakhtunkhwa, Sindh and Baluchistan but vary in standards and quality of data.

Education census plays a vital role as accurate and timely available data is key component for successful planning and development. Divisional level data collection workshop for the census year 2019-20 was conducted in order to produce reliable, qualitative and timely data to stakeholders and data use by education managers. EMIS at AJK has accomplished the objectives and successfully completed the education census during previous years. In this context there is a great need for continued efforts to include budget for EMIS routine activities in the recurring budget for its sustainability and future activities.

Intended Audience

In order to ensure the realization of build back better, reliable data and information will prove to be one of the most important factors. The findings of this census will primarily be of great interest to the various federal and provincial government departments, donors and coordination bodies such as United Nations and implementation agencies. This report is envisaged to help government and donors in their strategic planning, allocation of funding and improvements in the existing plans.

Aims and Objectives

Following were the aims and objectives of the education census;-

- ✓ Provision of timely and accurate information to federal and AJK government as well as other education stakeholders, including international agencies and donors.

- ✓ Facilitation in development and implementation of education plans at state and district level
- ✓ Facilitation in need based allocation and transparent utilization of education budget.

Methodology

The Collection of detailed Data for Schools and related Human Resource for School Census was a challenge for the Elementary & Secondary Education and its line department. To obtain accurate data within short span of time and especially without disturbing educational activities the E&SE Department opted for outsourcing the Data Collection task. In this regard, Request for Proposal (RFP) were invited for selection of Data Collection Firm (DCF) and after following proper procurement procedure the Taleem Foundation (TF) was entrusted with the task for Collecting Schools Data on the prescribed forms.

The major scope for DCF was;

- ✓ Data Collection from Schools of AJK on the prescribed Data Form.
- ✓ Data Collection of Human Resource (Teaching & Non-Teaching Staff) in the schools of AJK on the prescribed Data Form.
- ✓ Proper supervision and quality control measures should be adopted to ensure that the data collected is accurate and presents true picture
- ✓ Physical verification of data and school facilities
- ✓ Coordination with School management, Area Education Offices and District Education Offices, for sharing survey plans and there of endorsement of each filled form by respective education managers.

The above task had to be submitted within three months (90 working days), up to and including submission of the final report, whereby the joint venture will carry out training and data collection. The assignment was consulted and coordinated with Department of E&S Education, GoAJ&K through Planning Cell E&S Education. The focal person and concerned management were notified on behalf of E&SE and were properly shared with Data Collection Firm (DFC).

The DCF collected the data including vital land record, human resource and school building details of all public sector educational institutions in AJ&K in the given formats already printed for the target schools in all districts as per the requirement of the TORs and mapping was done keeping in view the scattered, far-flung areas adjacent to boarder. To undertake the assignment the team has developed mix and match strategy considering all possible options including deployment of field enumerators, engaging students from the universities, and working through coordinating the efforts of already working people residing in each respective divisions/districts/UCs of Azad Jammu & Kashmir.

As per plan, every team had a focal point who has acted as central communication point for any field enumerators. This focal point was also responsible to interact with Field Coordinator, who was then directly in touch with the E&SE focal point for the district and or over all in charge of the field-based task at E&SE end. This communication was further fortified by sharing the cell phone numbers of the all the team members with the Client's focal person and field coordinators. Any instruction given from

the E&SE end had trickled down to each member of the field team and similarly any update from the field teams would immediately be communicated. However, DCF were open to all the E&SE suggestions to make this efficient, robust and prudent communication process more timely and friendly.

The DCF teams had captured photos and GPS coordinates as per the requirement. They also verified and assured quality and accuracy of information and assessed accuracy for inconsistent or illogical answers. DCF also ensured that all field enumerators completed forms within specified time plan. It was planned to loop the district management group of Govt. Of AJK in each district coordinated through letter asking for help in terms of receiving data from schools existed on border

Findings

Some of the important findings of the Education census 2019-20 are as under:

1. Total institutions covered in Education Census 2019-20

Table .1 presents the district wise segregated data of government institutions in Azad Jammu and Kashmir. The district wise analysis indicates that out of 5991 educational institutions, 278 and 257 are located in districts Neelum and Haveli Kahota respectively being the lowest figure, while the highest figure 1,024 is reflected in Kotli district.

Table 1		
District wise Number of Government Schools		
Districts	Total Institutes	%
BAGH	610	10%
BHIMBER	594	10%
